

# PATRIOT SpraySafe™ Systems

We deliver the widest, most trusted system for adding color to polished concrete available. One way that we can provide you with consistent results is by identifying the best application method for our products, which is exactly what we did with the Patriot SpraySafe™ System. You will receive the best, most consistent results when applying your dyes and sealers with the CO2 driven pumps, and through our line of conical spray tips with ceramic inserts. Whether for dyes, densifiers or sealers, we offer the best system for ease, consistency and safety.
